II. DEFINITION OF TERMS

Downline – A downline refers to people directly sponsored by a representative BA plus all the people whose line of sponsorship resulted from and came through that BA. Your downline consists of all your Level 1, Level 2 and Level 3, etc. It represents Personally Sponsored BA's through a potentially unlimited depth.

BA – Business Associates is the general term DubLi Network uses for all its members. At the same time it is used for people who enrolled with the \$99 Business Package only. The BA position cannot enroll anyone to establish a DubLi Network organization in the worldwide binary business structure. A BA can only sign up customers on DubLi.com. A BA can qualify or upgrade to a TM position.

TM – Team Member is a member who has paid for the Business Package and Membership Package to become part of DubLi Network and can sign up Business Associates to DubLi Network or customers for the DubLi Cashback program.

Enroll – The process of affiliating with the business opportunity offered by DubLi Network the company. Every enrollee must have a sponsor and the company cannot be a sponsor.

Upline – The Term "Upline" refers to the portion of your direct genealogy that precedes you. Your upline consists of the Business Associate who is your sponsor, and his sponsor and their sponsor, etc. up all the way to the company.

Sponsor – The person that actually shows the prospect the business opportunity and enrolls the prospect as a representative.

Genealogy -- Genealogies, like a family history, are composed of a Business Associate and the Business Associates enrolled before and/or after him/her. Such that relationships are directly traceable to one another.

Placement – The Business Associate that is credited with another Business Associate's enrollment. The placement is not necessarily the same individual as the sponsor/enroller.

Binary Terms:

Team "Community" Leg – The outside leg that is connected with your personal sponsor.

Personal Leg "Money" Leg – The inner leg starting from you to your next enrollments and thereafter is called a Personal leg for the Originator of the leg and becomes Team "Community" Leg to all that are enrolled into that leg.

First Level – Based on the Unilevel structure, every person you personally enrolled and designated you as the sponsor is called first level. You will be entitled to earn a D2 First Level D2 Cycle Bonus Match when you sponsor one TM maintaining active status in each side of your Binary Tree

Placement in the Binary Tree will be determined by the instruction of the enrollers preset setting (left, right or auto). If auto mode is selected, enroller is instructing a computer to automate to choose the next available position of the enroller tree with fewer points on the point counts between the two sides.

Placement Rule:

1. First enrollment will always be placed on the Team "Community" Leg. Thereafter you will have choice to select left side, right side or Auto Selection mode to control your business activities.
2. Enrollment can be placed between the left side and right side of the tree but will not be able to place anyone to the inside of the inside tree.
3. Inside leg may be viewable to the person who originated the leg and if the originator chooses to display in the tree. If originator of the tree selection is not to display the inside leg, it will become hidden invisible to the others in the upline.
