

This agreement is made on September 20th, 2012 between Danti Riveria and Preston Odenbrett. They have mutually agreed that they would be investors of 1% of the 15% share of Smash Solution that is going to be launching to the general public at end of April 2013 or around that time frame according to the leaders of the company.

We have agreed that the first payment of \$333.00 is paid by Preston in September, 2012, the next payment of \$333.00 will be paid by Danti in October, 2012, and then the 3rd and final payment will be paid in November, 2012 for \$111.00 each to fulfill the total of \$1,000.00 for the 1% share of the company profits and to fulfill the agreement that Danti signed with Smash Solution in July, 2012. Both Preston and Danti have this signed agreement and Smash's representative for this agreement Vivianne knows that we have agreed to be partners to mitigate the potential risk for this investment.

So far as of this date the unique visitors have been outstanding at over 10 million since the time it was launched to a small select number of business owners across the world. We understand that we have to maintain a membership of said \$20.00/ month. If we don't pay this within 15 days, Smash Solution has the right to revoke our share and we lose the investment. This is highly important that this will be paid and it is suggested that someone who has a regular credit card pay this monthly by automatic payment and the other party pay the 1/2 of what is owed after payment has been made.

We understand that from Smash Solution that this is a risk based on how many people become long term members even though at this time it is free for all the services. We also understand that Danti will be getting a snap shot on the company profits because she is the signer of the original document for Smash Solution and will forward to Preston the information via email or another way so that Preston will be informed on the profits the company is receiving.

It is also understood that the company will be creating leads for each of the investors that we will be following up with in regards to getting involved with smash or other tools. We are not sure how to handle this as Preston has more time to follow up then Danti, but Danti has more business experience then Preston. If any lead becomes a client, that client lead will be converted to the appropriate place under Preston or under Danti. If that lead becomes a client of Wowwe as well, then each client will distribute out fairly among Danti in regards to leads also for WowWe or any other account in regards to this lead, which is and will be separate from this agreement.

It is also agreed that when income is generated that either Preston or Danti will give 1/2 of these monies to each other without much delay based on information provided by the company.

If the income that is generated is not given to each party within 60 days of the profit received, the other party has the right to ask for and to claim that 50% of the profit and if necessary will request a 3rd party to fulfill this contract.

We also understand that each of our accounts is separate in Smash Solution and each one has an assigned URL for the purposes of marketing the services to others in order to promote and get others involved. In no way, now or in the future, will these 2 separate accounts be merged into one account. Unless expressed in writing by both parties. The 15 % on the 1st level and 15% on the second level is

created by each party and is not a merged account.

Danti also understands that she is part of Preston's 1st level and any person or organization that she gets involved with Smash with her unique URL will be generating 15% to Preston as his second level and Danti will be receiving 15% for her 1st level. If those that get involved with her decided to market their unique URL then and only then will she receive the 15% on what her people decide to do?

As of 4/17/12. Preston has over 120 people that have signed in with him and the Smash Solution with a lot of his own efforts since the pre-pre launch. It is understood that as of today's date Danti has 0 people who have signed up with her.
