Terms and Conditions apply. Please visit www.dubli.com for review. Credit Card payment lets you shop quickly and securely. You can pay easily with VISA or MasterCard. CVV Cardholder Verification Value (CVV) or Customer Identification Number (CID/4DBC) are three or four digit numbers that help ensure that the physical card is in the cardholder's possession while shopping online. This helps prevent unauthorized or fraudulent use. The 3-digit code is located on the back of your card, inside the signature area. Typically the signature panel will have a series of numbers, but only the last three digits make up the CVV code. The CID/4DBC is ALWAYS located ABOVE the embossed (raised) account number on the face of the card. In some instances, the CID/4DBC is located on the left side of the card, but is always above the account number. Some cards have a four-digit number embossed below the account number, but this is not the CID/4DBC. All fields are mandatory fields, and must be completed. You may be conducting an international transaction. Please note that your bank may charge you a transaction fee of 3%.
